Notes

1. House in multiple occupation (HMO).

A HMO is a house or flat that is occupied, as a main residence, by more than one household, where occupiers share facilities such as kitchens, bathrooms and WCs. This would include for example, houses containing bedsits, a combination of bedsits and self-contained flats (where the bedsits share facilities), shared houses and hostels.

2. Household

The definition of household relates to any members of the same family, including spouses, aunts, uncles, nieces, nephews, grandparents etc and partners living together as husband and wife (or in an equivalent relationship in the case of persons of the same sex).

3. The most appropriate person.

The most appropriate person is normally the owner if s/he is receiving all rents directly. If however, a managing agent has financial control of the HMO they may be the most appropriate person to hold the licence.

Protected tenants or leaseholders with an un-expired rental period of less than three (3) years may wish to make comments about whether the licence should be issued to the applicant and/or about conditions being placed on the licence.

4. Fit and proper persons

The proposed licence holder and any proposed manager of the property must be 'fit and proper' persons. The Council will consider any evidence of offences committed/malpractice in deciding whether the proposed licence holder and/or manager are 'fit and proper'. Evidence to be considered is:

- ▷ Offences involving fraud/dishonesty/violence/drugs or certain sexual offences.
- ▷ Unlawful discrimination on the grounds of sex/colour/race/ethnic or national origins/disability, in, or in connection with, the carrying on of any business.
- ▷ Contravention of any Housing/Landlord and Tenant/Planning legislation.

5. Management Arrangements

The Council must consider that the proposed management arrangements are satisfactory, and in deciding this, the Council must take into account:

- ▷ That anyone involved in the management of the property has a sufficient level of competence and is a fit and proper person.
- ▷ Management structures and funding arrangements are suitable.

Conditions on the licence may be applied to ensure management arrangements are satisfactory.

6. Right of Appeal

The applicant or any 'relevant person' may appeal against the licence approval or terms of the licence to a Residential Property Tribunal within 28 days from the date the decision to grant the licence was made. (Schedule 5, section 31)

The 'relevant person' means any person having an interest or estate, managing or having control, of the *house*. It can also mean any person on whom any restriction or obligation is or is to be imposed by the licence.

An appeal can be made to the Residential Property Tribunal at:
First-tier tribunal – Property Chamber (Residential Property)

7. Penalties

A person having control or managing a house in multiple occupation who fails to:

- ▷ license a relevant house in multiple occupation, or
- ▷ allows the house to be occupied by more persons or households than is permitted by the licence

commits an offence (section 72) and may be subject to a financial penalty notice of up to £30,000 or an unlimited fine.

A licence holder or person who has restrictions or obligations placed on him by the licence and who fails to comply with the conditions of a licence commits an offence and is liable to a fine of up to £5000 for each condition breached (section 72) and the potential loss of licence.

8. Advice

If you do not understand this licence or wish to know more about it, you can contact the Council. If you want independent advice about your rights and obligations, you should go to a Citizens Advice Bureau, Housing Aid Centre, Law Centre or a solicitor.

The property licence and conditions do not imply or grant by inference or otherwise any approval or permission for any other purposes including those for Building Control, Development Control and under The Regulatory Reform (Fire Safety) Order 2005. Conversely compliance with any of those requirements does not confer or imply compliance with the requirements of the Housing Act 2004 including property licensing.

Any HMO for more than six people may also require planning permission. Please contact the planning team to clarify what planning permissions are already in place for the property and advice on the process. Please note that unlawful HMO's may be subject to planning enforcement action. The Council do have powers of enforcement against breaches of planning control and that, upon summary conviction, continued failure to meet the Council's enforcement requirements could ultimately result in an unlimited fine.

For planning and building regulation queries please refer to the planning and building pages on the Council's website.

Any requirements relating to the licence and conditions are without prejudice to assessments and appropriate actions including enforcement actions under the Housing Act 2004. This includes actions to deal with category 1 and category 2 hazards as may be identified under Housing Health and Safety Rating System (HHSRS) and does not preclude such action.

Provide and fix a notice(s) containing the arrangements for the storage, recycling and disposal of waste, in a position readily visible to all occupants, next to or as close to the refuse container(s) provided. The notice shall be in clear legible lettering and not easily defaced or damaged and shall be securely fixed in position.

18.3. The licence holder shall ensure that any items of bulky household furniture (such as mattresses/bed bases/fridges etc.) are disposed of in a responsible manner using a licenced waste carrier or the Council's chargeable bulky waste collection service.

18.4. The licence holder shall label any furniture, soft furnishing and kitchen appliances and white goods provided at the property, using a suitable indelible marker pen (removable labels are not acceptable) with the address and, where relevant, the room number the articles relate too, e.g. Room 1, 38, postcode. The labelling should be readable and clear. The licence holder will regularly check the labelling and re-label should the existing labelling have faded to the point it can no longer be read. This doesn't apply to articles provided by the tenants.

Note. This condition will be applied in defined hotspot areas where there have been significant issues with dumping of articles of furniture, etc. as a way of easily identifying the properties the articles come from.

19. Fire precautions

19.1. Provide fire precaution facilities and equipment at the property, as deemed necessary by the London Borough of Lambeth. Information on necessary fire precautions and equipment for the property will be provided to the licence holder. Fire precautions and equipment must be maintained in proper working order. Appropriate records of such maintenance, such as current certificates, are to be kept and produced to the London Borough of Lambeth on demand as evidence of such maintenance. Provide details of fire exit routes to tenants and, in respect of the fire alarm system, ensure that all tenants are aware of fire and fault indications, are adequately familiar with controls (e.g. resetting) and aware of measures to avoid false alarms. Tenants should be aware of what to do in the case of a fire.

Consummate with the requirements of the Regulatory Reform (Fire Safety) Order 2005 (<http://www.legislation.gov.uk/ukxi/2005/1541/contents/made>) the manager shall make a suitable and sufficient assessment of the risks to which tenants or visitors to the HMO are exposed for the purpose of identifying the general fire precautions required at the HMO. The manager shall supply a copy of the risk assessment to London Borough of Lambeth on demand.

20. Security

20.1. The Licence Holder must ensure that there are adequate measures in the property to provide a secure environment for the occupiers. These should include the following minimum requirements:

Where window locks are fitted, the Licence Holder will ensure that keys are provided to the relevant occupant.

1. The Licence Holder must ensure that the main entrance/exit door and any other door designed for escape in the event of an emergency is fitted with locks that can be opened from the inside without the use of a key.
2. Where previous occupants have not surrendered door keys, the Licence Holder will arrange for a lock change to be undertaken prior to new occupants moving in.

20.2. The Licence Holder must ensure that security measures do not impede any provisions provided for means of escape from fire.

21. Fire Doors

21.1. The licence holder shall carry out a full inspection of any fire doors installed in the HMO. The licence holder shall ensure that:

1. The door is sound and in good repair.
2. Any glazing in the door is in good repair and at least 6mm minimum thick wired cast glass.
3. The door been fitted with 100mm butt hinges that are securely fixed.
4. The intumescent strips and cold smoke seals are in place and in good repair.
5. The self-closer fitted to the door operates correctly, closing the door without intervention.
6. The gap between the frame and the door is no more than 3mm.

21.2. The licence holder shall submit to the Council within three (3) months of the date of the licence a signed declaration stating that the above has been carried out.

In addition, the licence holder shall submit to the Council within three (3) months the licence manufacturers certification that the door meets the relevant British Standard for fire resistance and smoke control. Where you cannot evidence that the fire door meets the relevant British Standard for fire resistance and smoke control from both sides, carry out the following:

a) Put in place interim measures to mitigate the risk of sub-standard doors. The level of interim measures will depend on the nature and size of the building but could include;

- ▶ advising the occupants in writing of the evacuation procedures and the reason and need to keep fire doors closed,
- ▶ carrying out fire drills,
- ▶ decreasing the intervals between management inspections,
- ▶ putting in a waking watch,
- ▶ making sure the route of escape is free of obstacles and combustible materials,
- ▶ where it is safe to do so providing escape windows.

With the interim measure in place, either:

either obtain third party certification that the in-situ doors meet the relevant British Standard, or

1. plan to replace the doors.

Where you are uncertain that the doors to be purchased are from a manufacturer that can supply actual certified 30-minute fire resistant doors then we would recommend buying and installing doors labelled as 60-minute fire resistant. By doing so you are providing yourself with some assurance that the doors should at least provide 30-minute fire resistant if not greater.

The licence holder shall submit to the Council within twelve (12) months of the date of the licence third party certification that the in-situ doors meet the relevant British Standard or manufacturers certification relating to the resistance of the new fire doors installed at the HMO.

22. Flats in Multiple Occupation in a block of flats

22.1. The licence holder shall ensure the tenants of the Flat in Multiple Occupation (FMO) are informed in writing of the fire safety arrangements in place within the block, being, but not restricted to:

- ▷ Tap aerators
- ▷ Shower flow regulators

- ▷ Combismart - thermostatic valve – only where Combination Boilers are fitted.
- ▷ Toilet cistern – flush water-use reduction devices.

The great majority of water companies offer both a free 'water saving' assessment of property and a selection of free water saving devices. The Council advises that you contact your water company in the first instance before purchasing any equipment.

The Council recommend that you have a qualified plumber install all devices in the HMO, to ensure proper fitting and use as these devices cannot be used for all types of water products, e.g. power showers.

24. Infectious Disease Control

In the event of either a national or local outbreak of an infectious disease (that poses a significant risk to health) that is spread by air, water or touch (or a combination of these), the licence holder shall as a minimum put in place the following measures:

▷ Inform

Notify all occupants in writing of the nature of the infectious disease, how it is spread and the measures put in place at the HMO to limit its spread.

Provide a Notice, clearly displayed, in an accessible common area, setting out the nature of the infectious disease, how it is spread and the measures put in place at the HMO to limit its spread.

▷ Clean

Increase the frequency of the cleaning schedule for all the common areas in the HMO, including (but limited to) living and dining areas, shared bathrooms, toilets and kitchens. The minimum frequency should be three times a week.

The cleaning regime should include (but is not limited to) the sanitisation/disinfection of:

- ▷ Door and window handles and locks,
- ▷ Doors, handles and controls of all white goods communally provided,
- ▷ Taps and plugs, Showers, Baths,

- ▷ Wash hand basins, Toilets, Shared surfaces, e.g. dining tables, chairs, coffee tables, etc.

Provide hand sanitiser stations in each common room including (but limited to) living and dining areas, shared bathrooms, toilets and kitchens and at the main entrance to the HMO. The sanitiser should not be diluted in any way and supplied in pump action containers for ease of use.

Examples of an infectious disease that would require these measures to be put in place are, COVID-19, Tuberculosis, SARS-CoV, cholera, etc.

The licence holder must inform the Council by emailing HMOLicensing@lambeth.gov.uk within 72 hours of becoming aware of the occurrence of an outbreak.

25. Occupancy

Where items of this nature are stored in the garden they should be stored in locked container, inaccessible to children. The garden should be safely & easily accessible to the children.

Baconies must have guarding to a height of at least 1100mm. Guarding should be designed to discourage children from climbing on it and should be strong enough to support the weight of people leaning against it. There shall be no gaps greater than 100mm in width.

Window sills (to windows on the first floor upwards or on the ground floor where there is a basement well) less than 1100mm shall be fitted with window restrictors. It shall be possible to override the window restrictors for escape purposes.

26. Provision of amenities and space standards

The standards which apply to the property with respect to kitchen facilities, washing facilities, heating facilities, space standards and amenity standards are the London Borough of Lambeth Houses in Multiple Occupation Standards. The Standards will apply during the term of the licence.
